## DATA TO IBM CLOUD:

The screenshot shows the IBM Watson IoT Platform dashboard. The device '1234' is listed with a 'Connected' status. The 'Recent Events' tab is active, displaying a table of events:

Event	Value	Format	Last Received
Data	{"gaslevel":262,"flamelevel":3,"templevel":-2.4}	json	a few seconds ago

## DATA TO IBM DATABASE:

The screenshot shows the IBM Cloudant database dashboard for the device '123456'. The document is displayed in JSON format:

```

1 {
2   "_id": "123456",
3   "_rev": "332-83cf79b4179f08263527e6a931d4db87",
4   "password": "123456",
5   "gaslevel": 520,
6   "flamelevel": 3,
7   "templevel": -2.4,
8   "msg1": "logged in",
9   "msg": "registered"
10 }

```
